Providing artists with financial support, critical recognition, and public exposure, these Awards aim to reward artistic accomplishment to date and to support the continued development of artists' work and careers. Artists must be generative artists—that is, the creators of original new work.

Awarded artists will be those who:

- Create new, contemporary work
- Produce work that is innovative and/or experimental in terms of form, content, process, and/or presentation
- Demonstrate sustained commitment to deepening/expanding their work and generative practices

Through recognizing and supporting exceptional artists living and working in Kansas City, Charlotte Street Foundation seeks to empower and propel individual artists, enhance the artistic culture of our region, and increase Kansas City's desirability as a place for artists to live and work.

Each 2022 Charlotte Street Generative Performing Artist Fellow will receive:

- An unrestricted cash grant of \$10,000
- Recognition by Charlotte Street Foundation at the time of Award announcement and throughout the year of 2021, including through announcements to media, online promotion, special events and more

Statement on opportunity equity:

Charlotte Street Foundation values an equitable, diverse, and inclusive art community, which we interpret as all artists having fair access to the tools and resources, they need to realize their artistic endeavors. We acknowledge structural inequities and oppressive systems that have excluded individuals and communities from opportunity based on race, gender, disability, sexual orientation, class, age, and geography, and strive to counter those inequities in our work. We encourage panelists and selection committees to actively consider and seek to recommend a diverse pool of applicants as finalists and recipients of these awards and all Charlotte Street Foundation programs.

SELECTION PROCESS:

The 2022 Generative Performing Artist Fellows will be selected through an open call for applicants followed by a competitive selection process. A selection panel of regional and national performing arts professionals with expertise in a range of performing arts fields will be solely responsible for selecting the 2022 Awards Fellows. ARTISTS WILL BE REQUIRED TO SUBMIT ALL OF THE FOLLOWING MATERIALS:

1. ARTIST'S STATEMENT (500 words or less):

Your artist's statement should describe your work as a generative performing artist working in the field of dance, theatre, performance art, music, sound art, opera, multimedia performance, puppetry, spoken word and hybrid/ interdisciplinary versions of all above.

Please make sure that your statement clearly and specifically describes 1) the generative, performance-based work that you create; 2) the intentions that drive your work; 3) the ideas and influences that inform your work; and 4) the processes involved in creating your work. Your narrative should make clear how your work is innovative/experimental in terms of form, content, process, and/or presentation.

Notes: If applying as a collaborative group, please describe the work of the group as a whole, your approach to collaboration, and the role and contributions of each individual. If applying as an individual who frequently collaborates with other artists, please describe your specific generative work and specific role and contributions to these collaborative projects.

2. ARTIST INTENT/VALUE OF AWARD (350 words or less):

Please describe, as specifically as possible, why the Charlotte Street Generative Performing Artist Award would be of value to you now. Your response might address how the Award would assist you in advancing current or new projects, pursuing research, exploring new processes or contexts, pushing the scale or scope of your work, initiating or deepening collaborations, engaging new participants or communities, capitalizing on professional opportunities, or any manner of ways in which these funds, recognition, and exposure would make difference for you and your work as a generative artist at this time.

3. RESUME/CV (incl. history of generative performance work 5 pg. max)

4. WORK SAMPLES

Please submit DOCUMENTATION OF UP TO 3 ORIGINAL WORKS you have created within the past 3 years. If applying as an individual artist, these should be works of which you are the primary creator or, in the case of collaborative work, equal co-creator. Please do not submit works for which your role was exclusively as performer, or in which you had a minor creative/generative role.

Panelists will review no more than 5 minutes of work samples. The preferred form of work sample submission is ONE 5-minute compilation of work samples/edited excerpts, which makes for efficient review by panelists. Please note, edited compilations should not be "retrospective" or overview presentations, but rather should provide panelists with a substantial understanding of your current work and its content through carefully selected samples. In lieu of one compilation, artists may submit 3 separate work samples/excerpts, totaling no more than 5 minutes in length.

Please note, work samples are the most important component of your application, and should be carefully selected to most strongly represent the quality and substance of your work as a generative performing artist.

Also note: playwrights should submit audio or video samples to represent their work. We have discovered that applications with scripts as work samples do not prove competitive because evaluators cannot properly judge the work as a live experience.

Submit work samples either as a list of URL links (preferred) or as audio or video files uploaded through Submittable. (See below for more information about audio and video files.)

5. WORK SAMPLE LIST

Your WORK SAMPLE LIST should correspond to your work samples. This list should provide relevant details about your work samples, including title, date, media, venue if applicable, your role in its creation (i.e. composer, choreographer, etc.), and a brief description of the intent and content of the work. If involving significant collaboration with others, please list collaborators and specifically explain their roles in its creation.

More about work samples:

The preferred method of submitting audio and video work samples for this application is to upload them elsewhere (suggested host sites: Vimeo for video, Soundcloud for audio) and to provide URL links rather than uploading files through Submittable. However, artists WILL NOT be penalized for uploading files through Submittable.

File Types accepted through Submittable include: 3GP, WMV, AVI, MOV, ASF, MPG, MP4, M2T, MKV, M2TS

Resolution: minimum 640x480, maximum 1920x1080 Frame Rate: minimum 12 fps

File Size: maximum 100 MB
